Public Works Department,
(Irrigation)

Madras, tne 18th Sept.1920.

Dear Mr.Cadambi,

I enclose (Note A and Illustrative Table B) a statement of the terms of settlementa that I am prepared to recommend to my Government.

You will observe that they are practically those which you have proposed in your demi-official letter No.C.61 dated 7th instant. The only material modification is with regard to the percentage losses in transmission proposed in para 4 of your Note A dated 5th September 1920, enclosed with your letter. These values are, in my opinion, unduly high, and I have suggested in para 5(g) of my annexed Note that observations as to the actual loss should be carried on for the next ~~few~~ years and the values then determined by mutual agreement; failing which, the matter should be referred to the Government of India for final decision.

I write this letter in a hurry to catch this evening's post, but I hope to write again in more detail to-morrow or on Monday. The annexed Note, however, is the important matter and I wanted to let you have it at the earliest possible date.

Yours sincerely,

Sd. W.J.Howley.
